PRICE CATEGORIES I AND II

List of Firms

PRICE COMMISSION

PRICE CATEGORIES I AND II

List of Firms

This notice contains a list of the names and addresses of those firms the Price Commission has determined as of August 21, 1972, are price category I or II firms.

Sections 101.11 and 101.13 of the regulations of the Cost of Living Council define a price category I firm and a price category II firm. In addition, those sections require a price category I firm to submit a prenotification to the Price Commission of each proposed price adjustment and require both price category I and II firms to submit quarterly reports with the Price Commission.

Classification of a firm in this list as a price category I or II firm is based on its type of business and the annual sales or revenues of the firm. Annual sales or revenues is defined in § 101.2 of the regulations of the Cost of Living Council and price category determination is not limited to the amount of "covered" sales of a firm. For price category determination domestic subsidiaries of the same foreign parent are aggregated.

The lists do not include those price category I or II firms which are hospitals, providers of health care services, mass transportation systems, government agencies, tariff bureaus, universities, non-profit organizations, government corporations, or city, county, or State-owned utilities.

Generally, price category I firms are defined by § 101.11 of the Cost of Living Council regulations to include only firms with $100 million or more in annual sales or revenues. However, those construction firms with $50 million or more in annual sales or revenues are also included in Price Category I. Similarly, § 101.12 in defining price category II firms includes only firms with $50 million to $100 million in annual sales or revenues, but includes construction firms with $25 million to $50 million in annual sales or revenues. Although insurance firms with annual sales or revenues of more than $100 million or more are technically price category I firms, only those insurance firms with annual sales or revenues of $250 million or more are required to prenotify price increases (see § 101.16(d) of the Cost of Living Council Regulations and § 300.20 of the Price Commission regulations). Therefore, this list includes under price category I only those insurance companies who are so required to prenotify.

Those firms who have demonstrated to the Price Commission that they fall within the purview of Cost of Living Council Ruling No. 1972-89 for price category determination purposes have been placed in the proper category.

The listing herein of a firm in a particular classification, does not change the legal requirements of that firm under the Economic Stabilization Program. This list will be updated periodically by the Commission and published in the Federal Register for the information of all interested persons. Any firm that believes that it should be listed but is not listed, that its address or name is incorrect, or that it is incorrectly classified or listed, should notify the Director, Office of Compliance and Enforcement, Price Commission, 2000 M Street N.W., Washington, DC 20508, in writing, before October 2, 1972, so that the matter may be corrected. To support a change in price category, a firm should submit a copy of an audited financial statement for its most recently completed fiscal year, to the Director, Office of Compliance and Enforcement. Unless the Commission is notified of a change or correction in the listing of a firm before that date, it will be assumed by the Commission that the firm's listing as shown herein is correct.

Issued in Washington, D.C., on August 24, 1972.

C. JACKSON GRAYSON, Jr.,
Chairman, Price Commission.
